dear ladies and gentlemen,

you asked for for users option -  
here is mine:

the nine states longing for  
stronger restrictions are absolutely  
right. as you might see, i am writing  
this mail in ms outlook. i am not  
doing this because i like the  
programm but because of uncontrollable  
system-failures by using netscape.  
the interchangeability of the  
ms office formats that can not be  
reached by other programs (e.g.  
sun's staroffice) forced me to  
buy the very expensive ms office...

thank you for your interest,

Frank Schreck, Heidelberg / Germany
